18 October 1955

MEMO FOR: Mr. Allen Dulles

The attached Memorandum for Record covers our conversation of 4 October regarding the withdrawal of Chinese Communist forces from North Korea. Withdrawal of the remaining Chinese forces could be accomplished easily, thus facing the United Nations with propaganda pressure to withdraw Allied forces from South Korea. Such a move by the Communists would be entirely consistent with the pattern of other events.

It is my feeling that we should insure our policy makers are aware of this possibility so that U.S. policy can be shaped now to counter such a move as well as maintain the initiative in this part of the world.
